[illegible]mus et acutissimus morbus et acutissimam habet motionem. unde in[illegible] de lenis
in quarta die crisim. Si febris non adeo fuerit acuta eius motus non adeo
velox nimium erit in quarto die exspectandi et in vii. crisis. Si materia
fuerit grossior et gravior signa erunt in septimo exspectanda et crisis
in xiiii. Si cum incipit aliqua signa in iiii. die et complebit in vii. et in xiiii. ... erit.
et alia ... movetur usque in xx. diem eius crisis prolongabitur usque
ad xx. Causa quia motus morbi cum fuerit tardus et nullo modo
signa indicancia [illegible] significantur
materiam esse grossam. ideo tunc est ut moveatur crisis usque fiat perfecta
crisis in xx. die. Si cum in ... festinans se incipit in vii. fi-
nitur in xi. fiet crisis in xvii. aut xviii. Si firmatus morbi et diuturna
febris et capitis dolore et alia accidencia que diximus esse significancia
fuerint prolongata usque ad xx. diem significat materiam parum habere calorem
et tardum habere motum. unde significationes eius apparent parum quamquam
[illegible] non est perfectam crisim in xx. in perfectam
in xl. quia ab inicio morbi usque ad xx. tantum est quantum a xx. usque ad xl.
proinde non in xx. die erit bona terminatio quia motus morbi quanto
est tardior tanto et crisis fit tardior. Si vero motus sit velox necesse
est ut crisis sit velox.
