

Pfallat altitudo celi.

Pfallant omnes angeli.

Quaequid est uirtutis usquā

Pfallat in laudem dī;

Nulla linguarum silescat.

Vox et omnis consonet;

Eccē quē uates uetustis

Concinebant saeculis;

Quē prophetarum fideles

Pagine sponderant.

Emitat promissus olim.

Cuncta collaudent eum;

Cantaris infusa limpha

Fit falernū nobile.

Nunciat unū minister

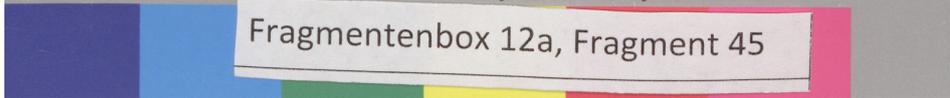

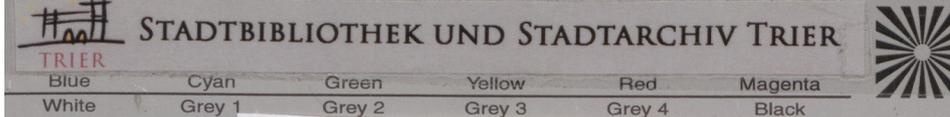

Isse promptū ex chria;

Ipsē rex sapore tinctis

Obstupescit poculis;

Membra morbis ulcerosa.
